SSLC - 74%

Stansford International Higher Secondary School

2016 – 2017

Professional Experience

React Developer

Banyan Technosoft

07/2023 – present | Puducherry, India

- I'm a frontend developer with hands-on experience building responsive and user-friendly web applications using React.js, JavaScript, HTML, and CSS. I focus on writing clean, reusable code and turning complex UI/UX designs into smooth, functional interfaces. I enjoy collaborating with cross-functional teams and consistently look for ways to improve performance and user experience.
- Built and maintained scalable applications using React.js and Redux.
- Translated designs from Figma and Adobe XD into pixel-perfect, responsive layouts.
- Integrated RESTful APIs, ensuring smooth data flow between frontend and backend.
- Boosted performance with techniques like lazy loading, code-splitting, and memoization.
- Worked closely with designers, developers, and QA in Agile environments.
- Used Git for version control and regularly contributed to code reviews.

Projects

3D Portfolio

- A modern portfolio with 3D elements built with React.
- Technologies: React.Js, Three.Js, Motion Framer.

Online Exam Portal

- A web application for conducting online exams.
- Technologies: React.Js, Spring Boot, MySQL.

Tracking Expenses App

- A mobile application for tracking expenses.
- Technologies: React Native, Expo.

Departmental Store

- A web application for managing a departmental store.
- Technologies: React.Js, Express.js, MySQL.
